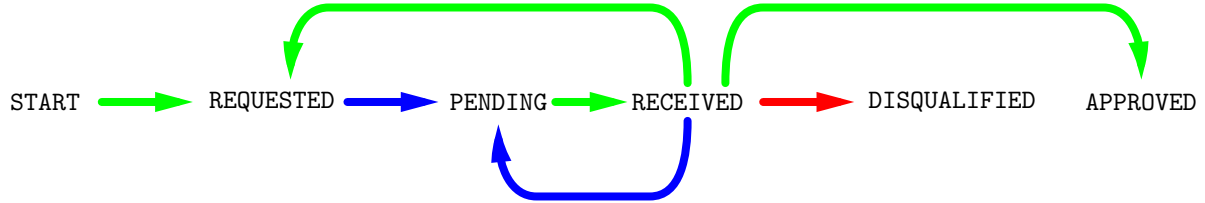

Figure 1: Validation state diagram: head judge actions in green, users in blue.

1 State transitions

- **START → NEED**

The validation starts with the head judge asking for the original file, and an explanation.

- **NEED → PENDING**

The user uploads an original file, writes an explanation, and waits for head judge to examine.

- **PENDING → RECEIVED**

The head judge sees new material and acknowledges that it has been received so that the user can see.

- **RECEIVED → NEED**

The head judge asks for more files, or has more questions.

- **RECEIVED → PENDING**

The user decides to upload even more material, or writes another comment.

- **RECEIVED → DISQUALIFIED**

The head judge disqualifies the image.

- **RECEIVED → APPROVED**

The head judge approves the image.
